

Dear Members

There has been some negative banking news in the media related to the failure of Silicon Valley Bank in California. As such, we wanted to discuss the strength of My Community Credit Union.

My Community Credit Union remains sound with a very strong Capital position. As a matter of fact, we had a record breaking 2022. We had our largest net income recorded in our 70 year history.

Rest assured we are in great financial shape. We remain a safe haven for your current and future deposits.

Your deposits are federally insured by NCUA. Please contact one of our Member Service Reps if you wish to discuss how to maximize the amount of deposits covered by NCUA.

Again, we are financially strong and look forward to continuing to be a quality, stable financial resource for current as well as future financial needs.

Sincerely,  
Donna K Neal  
President/CEO
