Help Us Recognize International Credit Union Day

We celebrate International Credit Union Day in October every year because it raises awareness of the tremendous work all credit unions around the globe. Credit unions were founded to provide an affordable banking source for loans and savings. That means lower rates on loans and better rates on the money you save. The services and the education we provide is intended to “Empower Your Financial Future,” which is the theme of this year’s International Credit Union Day. This year, International Credit Union Day is Thursday, October 20. Please come say Hi or give us a shout out on social media about how we have helped empower your financial future.
